

CorkCore|LVT

CARE & MAINTENANCE

Expanko CorkCore|LVT™ floors are extremely easy to maintain. Use a mild detergent, vacuum cleaner or floor duster for daily/weekly maintenance. The accumulation of several coats of maintenance products, or incorrect maintenance may require periodic stripping of the floor to refresh the floor.

Regular Cleaning: Spray Cleaner

Spray Cleaner - A spray cleaner can be used for regular cleaning. Before applying the spray cleaner, wipe the floor, vacuum, broom or sweep it to remove all loose dirt.

Product Description:	A spray cleaner is a floor-cleaner for quick and easy regular cleaning typically using a swiffer type tool.
Areas of use:	Suitable for cleaning floors in commercial/residential applications.
Advantages:	Spray-clean-and put floor back into service when dry.
Directions for use:	Follow manufacturers instructions for correct tools and methods.

Regular Cleaning: Soft Cleaner

Soft Cleaner - A soft cleaner can be used for regular cleaning of the floor. Wipe the floor with a well-wrung mop, vacuum, broom, or sweep it to remove all loose dirt.

Product Description:	A soft cleaner is a mild detergent concentrate, which has been developed for regular cleaning.
Areas of use:	Suitable for cleaning floors in commercial/residential applications.
Advantages:	-pH-neutral-concentrate with very effective cleaning performance. Floor is easily cleaned and put back into service when dry.
Directions for use:	Follow manufacturers instructions for correct tools and methods.

Stripping & Cleaning

Strippers - are cleaning products for the removal of polish, old wax layers, cleaning products and dirt. The accumulation of several coats of maintenance products, or incorrect maintenance, may cause the floor to have an unpleasant look. When this occurs, it is necessary to remove all coats of maintenance products applied. Finish can be applied after stripping of the floor.

Product Description:	pH-neutral
Area of use:	For heavy soiled floors and to remove old floor care products in commercial / residential applications
Advantages:	-pH-neutral and low foaming
Directions for use:	Follow manufacturers instructions for correct tools and methods

Other General Information

Furniture legs should have large surface, non-staining floor protectors. Chair leg glides should be of at least 1 1/4" diameter and covered with felt pads. The felt pads should be checked periodically for grit and wear and replaced when necessary. Chairs with casters should have easily swiveling casters that are at least 2" in diameter with non-staining hard rubber treads at least 3/4" wide. Do not use ball-shaped casters without chair mats. Chair mats may be required under chairs with casters/wheels.
