10-YEAR LIMITED WARRANTY - MANUFACTURING DEFECTS

TECHNICAL SUPPORT 800.345.6202

All Expanko Resilient Flooring products are carefully inspected prior to shipment. Final inspection and approval is the customer's responsibility. The customer must approve and verify pattern(s) and color(s) as correct before installation. Additionally, because cork is a natural product, shade variation between tiles is normal and is not considered a defect; however the client must make the determination of the acceptability of the shading. Expanko Resilient Flooring is not responsible and will not accept claims for the installation of incorrect material, visually defective material or material that does not meet customer expectations in terms of shade consistency or variation. Installation of material shall be deemed confirmation of pattern, color, appearance and all other visual factors including but not limited to squareness and thickness.

Expanko Resilient Flooring warrants for a period of ten (10) years after installation that its Vallarex Cork Floating Floor is free from manufacturing defects. This limited warranty shall be available only to the original customer who purchased the Product.
