

## CorkCore|LVT

### GENERAL DESCRIPTION

CorkCore|LVT™ is a unique combination of Luxury Vinyl Tile and natural cork. The result is a highly durable, quiet, easy to maintain flooring solution. As the new standard in Luxury Vinyl Tile, CorkCore|LVT is comprised of 5 layers totaling 6 mm thick, featuring a .55 mm wear layer for durability and a 3 mm cork core for sound reduction, warmth, comfort and water resistance.

CorkCore|LVT the ideal solution for projects in the hospitality, healthcare, education, retail, corporate and restaurant markets worldwide with testing and certifications like Class 1 Fire Rating, 62 dB Acoustical Performance, GreenGuard Gold Certified and a 15 year commercial warranty.

Measuring 48" long and 5.5" wide, CorkCore|LVT can be installed over approved substrates without a vapor barrier, no additional sealers or finishes required to slow down installation. *Complete CorkCore|LVT Installation instructions (Document ID: 610) and CorkCore|LVT Care and Maintenance Instructions (Document ID: 611) as well as technical data and information about cork is available at [www.expanko.com](http://www.expanko.com).*

CorkCore|LVT floors are extremely easy to maintain. A mild detergent, vacuum cleaner or floor duster is all that is required for daily/weekly maintenance. The accumulation of several coats of maintenance products, or incorrect maintenance may require periodic stripping of the floor to refresh the floor. *Complete CorkCore|LVT Care and Maintenance Instructions (Document ID: 611) are available and should be followed.*
