

GENERAL DESCRIPTION

XCR5 flooring is made from a unique blend of recycled cork and rubber. It combines the benefits of these two components creating a colorful, UV resistant, water resistant, hardwearing floor that is FloorScore® Certified. Benefits of XCR5 include resilience, comfort, color fastness, sound reducing qualities, and slip-resistance. It is available in a color palette that includes earthy neutrals, jewel tones, and bright coloring, which meet the needs of both demanding commercial and residential installations.

Benefits:

- Multiple formats for maximum creativity
- Extremely Durable
- Naturally Resilient
- Quiet
- Resists discoloration due to ultraviolet (UV) exposure
- Contains naturally occurring inhibitors that resist the growth of bacteria, fungus and mold
- Environmentally Friendly/Contribute toward LEED credit
- Exceeds Industry Standards for Fire and Slip Resistance
- Seams can be heat welded for a seamless floor
- FloorScore® Certified

Applications:

Smooth Profile with a subtle texture is an easy to maintain, long wearing general purpose flooring material suitable for a wide range of commercial and residential applications.
